Mukul **Goel**

Mobile Application Developer

**Address** Noida, India 201306
Phone +918808913202
E-mail mukulgoel1998@outlook.com
Linkedin https://www.linkedin.com/in/mukul--goel/

Bringing more than 3 years of experience leading website design projects, including gathering user requirements, producing code, creating mockups and enhancing designs. Focused on creating clean, robust code with exceptional security. Achieves compatibility targets while meeting and exceeding customer demands.

Skills

Understanding of RESTful APIs	
Mobile UI and UX design	
Experience with Flutter	
Version control with Git	
Experience with Firebase	
Location-based Services	

Work History

2022-04 - Current

Mobile Application Developer
EightyFive Technologies, Goa, India (Remote)

- Integrated **third-party APIs** into mobile applications, enhancing **functionality** and delivering **seamless user experiences**.
- Boosted **app store ratings** by addressing **user feedback**, implementing **new features**, and releasing **timely updates**.
- Implemented **crypto and Web3Dart functionalities** in applications, utilizing **Ethereum** and **Avalanche chains**, enabling **decentralized financial solutions** within the app.
- Ensured high application quality through **comprehensive testing**, identifying and resolving **bugs** efficiently.
- Improved app performance by **optimizing code** and resolving **technical bottlenecks** to deliver a **smoother user experience**.
- Maintained an **organized and collaborative codebase** using **version control systems** like **Git**, enabling **effective team workflows** and project management.

2020-12 - 2022-03

Android Developer Intern
Mentee Education, Bangalore, India (Remote)

- Contributed to **Mentee's AI-powered Adaptive Learning Platform**, leveraging **data-driven learning approaches** to enhance user experiences.
- Designed and developed applications using the **MVVM architecture** to ensure modular, maintainable, and testable code.
- Integrated the **YouTube API** to enable seamless content delivery within the app.
- Enhanced app functionality by making **efficient API calls** and optimizing response handling.
- Maintained the codebase using **GitLab**, ensuring **version control** and collaborative development.
- **Mentee Education**, along with its **sibling** subsidiary **Factr Education**, were acquired by **Bhanzu**, extending their educational impact.

Education

2018-08 - 2021-05	**Master of Computer Applications: Information Technology**
	ITM University - Gwalior, India

2015-08 - 2018-05	**Bachelor of Computer Applications: Information Technology**
	Makhanlal Chaturvedi University - Bhopal

Projects

Taxi Guru:

Description: A taxi booking application with separate user and driver apps, enabling ride requests, real-time tracking, and payment options.

Key Roles and Responsibilities:

- Developed both apps in Flutter for cross-platform compatibility.
- Implemented intuitive UI/UX designs in collaboration with the design team.
- Integrated RESTful APIs for ride booking, tracking, and payments.
- Managed state efficiently to ensure real-time updates and smooth performance.
- Conducted testing to enhance reliability and reduce crash rates.

Easy Connect:

Description: A decentralized crypto wallet for managing digital assets securely, with wallet import and transaction features.

Key Roles and Responsibilities:

- Integrated Web3Dart for wallet import and management (MetaMask, WalletConnect).
- Enabled secure crypto transactions and interaction with Ethereum smart contracts.
- Implemented wallet creation, secure storage, and encryption for enhanced security.
- Tested and deployed the app to ensure a seamless user experience.

Prepaid Truck And Bike Express

Description: A logistics app for booking trucks and bikes with real-time tracking for goods transportation.

Key Roles and Responsibilities:

- Built the user interface and features for truck and bike bookings using Flutter.
- Integrated real-time geolocation tracking for shipments.
- Managed API integrations for booking, payments, and live tracking.
- Optimized performance for smooth operation across devices and network conditions.

ePay.me

Description: A next-gen digital wallet offering secure payment methods, including VISA, MasterCard, PayPal, and AMEX, supporting transactions in over 190 countries.

Key Roles and Responsibilities:

- Developed core functionalities for secure multi-currency payments with real-time transaction tracking.
- Implemented KYC and AML verification, 3D Secure, and two-factor authentication for enhanced security.
- Collaborated with backend teams to integrate APIs for payment processing and user management.
- Optimized app performance for seamless transactions and scalability.
